

Private Lesson Information

Private lessons are offered to enhance a child's learning in a one-on-one setting and are designed to be a supplement to regular classes. The goal of private lessons should be to enforce specific skills or help gain confidence. One-on-one instruction can be a great resource if the student struggles with a particular skill or needs extra fine-tuning.

Private lessons are scheduled directly with the coaches outside their regular work hours. You may contact any coach for their availability for private lessons. You may also request lessons with the office, which will communicate with our coaching staff to help match your family to a coach. Pricing and availability vary by coach.

Once a parent/coach relationship has been established, future communication regarding lessons should remain between the parent and coach. Please communicate with your coach to schedule or cancel lessons.

All students not currently enrolled in a class must register for an account using our Online Registration Form and have a valid card on file. A non-refundable \$50 annual registration fee is due upon starting private lessons. A gym use fee of \$20 per hour or a prorated portion of that hour is payable to the gym for each lesson. The gym use fee will be charged to your account using the card on file upon completion of each lesson.

Please reach out to the office with any questions!
